*Important notes on heifer base prices:

- Within each pen, buyers can purchase heifers via "choice" of 1 or more animals at the "choice" base price. If half the heifers in a pen sell via "choice", and there is still interest in specific heifers by buyers, additional choices from that pen will be allowed beginning at the "entire pen" base price. Once there is no interest in choosing specific heifers, remaining heifers in the pen will be offered beginning at the "entire pen" base price.
